

Powerful tracking capabilities via a Smartphone with Savi Now™

Imagine the value of knowing what your organization could achieve with end-to-end visibility across your supply chain. With Savi Now, the benefits are as abundant as they are effortless.

Savi Now unleashes the power of Smartphone sensors to provide you the ability to monitor, control, and manage the movement of goods through the supply chain with the simple convenience of a finger swipe.

Optimizing operational benefits with the power of Smartphone sensors

Savi Now is an easy-to-use mobile app that is available for iOS and Android-based Smartphones. It leverages Smartphone cameras and barcode readers to allow shippers, carriers, and drivers to initiate shipments while in the field. As an intuitive app, Savi Now requires no training. Additionally, with no traditional sensor tags to install, Savi Now provides you the simplicity and flexibility to field-initiate shipments at a moment's notice—saving you both time and money.

All shipment data captured with Savi Now is automatically sent to and accessible in Savi Tracking™ and Savi Insight™, Savi's proven SaaS solutions for high-value cargo tracking and asset management. The ease and efficiency of implementing a solution with Savi Now means you begin optimizing supply chain operations immediately. It allows you to respond faster to new or changing customer demands as well as improve long-haul, local, and last-mile deliveries.

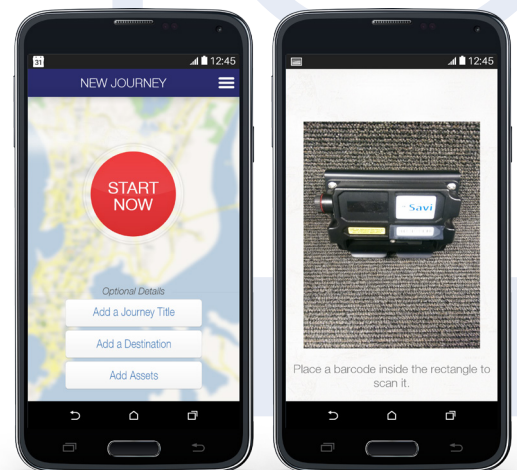

Take advantage of your existing investment in Smartphones to gain visibility with Savi Now. By downloading Savi Now to existing Smartphones, you minimize the investment required and quickly achieve a positive return on your investment.
