

Your Partner for the Sensor Data Revolution

A tremendous amount of data is generated by connected devices —and the volume of data is increasing quickly. Sensors drive over 30% of “Big Data.”

Are you ready?

Partner with the Leader in Sensor Analytics

With 25 years of leadership in sensors and sensor technology, Savi is pioneering sensor analytics solutions that create operational intelligence from the Internet of Things. Applying big data technologies to machine-generated data, Savi solutions are trusted to run the world’s largest and most complex asset tracking and monitoring networks. So no matter if you integrate, sell, or implement our solutions, partnering with Savi can help you:

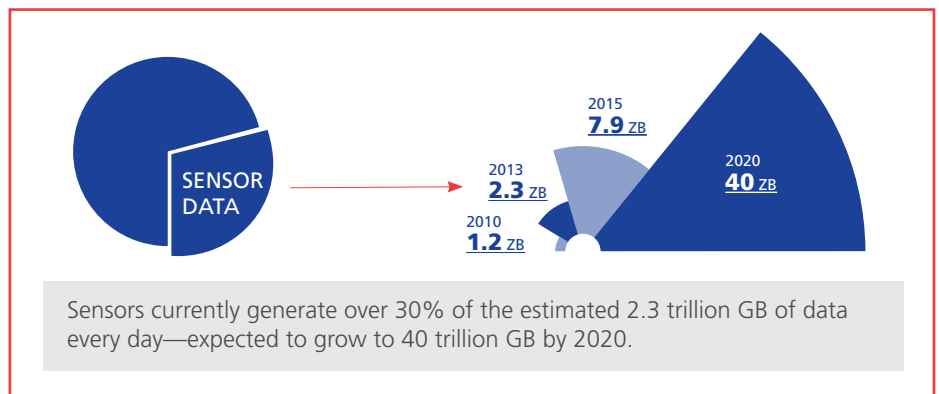

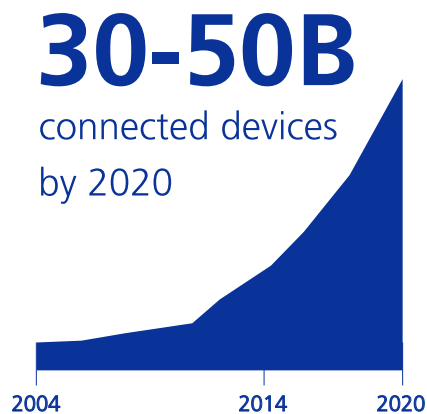

- Expand share of wallet among your current customers
- Provide new solutions to grow your revenue and customer base
- Demonstrate thought leadership in emerging markets
- Leapfrog your competitors by providing new innovative solutions
- Differentiate your organization while increasing revenue potential

Partnership Opportunities

Savi partners come from many industries including:

- Mobile network operators
- Telematics companies
- Systems integrators
- Government contractors
- Hardware providers

Drive your business forward using Savi’s market-leading capabilities.

Partner Program Overview

Our partners include a wide range of companies that complement and extend our products and services across four categories:

Powered by Savi

Companies that integrate hardware or software components from Savi into a named / branded technology solution

Savi Certified

Hardware that has been tested and proven to connect and integrate with Savi technology

Professional Service & Technology Partners

Organizations that provide services and technologies such as training, integration, support and hosting

Savi Alliances

A network of select value added resellers of Savi solutions including teaming partners
