**SAVI TECHNOLOGY SHOWCASES TRANSFORMATIONAL SUPPLY CHAIN ASSET  
AND IN-TRANSIT VISIBILITY SOLUTIONS AT PUBLIC SECTOR OPEN HOUSE**

**ALEXANDRIA, VA (July 15, 2013)** – Savi Technology, pioneer and leading provider of sensor-based analytic solutions, today announced it will hold an Open House on Tuesday, July 23 to highlight its most recent supply chain and asset visibility solutions for the U.S. Department of Defense (DoD) and other public sector organizations and agencies. The Open House will be held from 1 PM to 5 PM at the company's headquarters in Alexandria, Virginia.

Public sector organizations at the event will get a closer look at recent developments including the Savi Sensor-based Analytics Platform, Savi System on a Chip™, product demonstrations and intellectual property achievements including Savi's more than 100 patents. Participants will be able to meet directly with the Savi management team and product experts during the event.

Savi is at the forefront of tackling real-world issues for public sector organizations such as the upcoming migration from ANSI 256 to ISO 18000-7 for all DoD shipments and improving tracking of vital cargo in regions that lack modern infrastructure. Savi was named a Computerworld 2013 Honors Laureate for its work assisting countries such as Ghana, Kenya and most recently Tanzania to prevent cargo being lost or diverted, and protecting customs revenues.

"Most public sector organizations are tasked with complex supply chain and logistics challenges under difficult conditions, including relief missions, combat operations and the coordination between multiple agencies," said Rosemary Johnston, Vice President, Federal Sales & Strategy, Savi Technology. "Savi is excited to showcase its innovations that can help these organizations operate even more effectively and efficiently."

Organizations or individuals interested in attending the event can register by contacting Carla Braxton at (571) 227-7902 or [cbraxton@savi.com](mailto:cbraxton@savi.com). Savi is located at 3601 Eisenhower Avenue, Alexandria, VA 22035.

**About Savi**

Savi Technology provides enterprises and organizations with unique and critical insight with its Sensor Based Analytics platform. The platform gives enterprises the ability to access, analyze and learn from new data in ways previously impossible, yielding streamlined operations, enhanced security and dramatically improved enterprise decision-making. Savi is headquartered in Alexandria, VA, with operations in Lexington, KY and around the world. Savi was recently named a 2013 Computerworld Honors Laureate for the economic improvements its technology has provided to several countries in Africa. Savi has more than 100 domestic and foreign issued patents covering a variety of technologies and is an active participant in several industry standards bodies including ISO 18000-7.
